

MONTHLY PROLONGED SUSPENSION STATUS REPORT (MAIN BOARD) (as at 31 August 2019)

1. This report summarises the status of companies which have been suspended for three months or more.

Suspension, resumption criteria, and delisting periods under the Listing Rules (Rules)

2. The Exchange, as frontline regulator of listed companies, is obliged to maintain a fair, orderly and efficient market for the trading of securities. It may suspend trading in any securities for the purpose of protecting investors or maintaining an orderly market. Where there are concerns about investor protection, the Exchange may require the company to address these specific concerns before allowing trading to resume¹.
3. In the interests of promoting a continuous market for the trading of listed securities, the period of suspension should be kept as short as possible. Resumption of trading normally takes place after the publication of information, and where applicable, fulfillment of conditions imposed by the Exchange.
4. On 1 August 2018 (the **Effective Date**), amendments to the delisting framework under the Rules came into effect. Under the amended Rules, the Exchange would cancel the listing of a suspended company after a trading suspension of 18 continuous months (the **18 month period**). Depending on the specific facts and circumstances of a suspended company, the Exchange may at any time publish a delisting notice stating its right to delist the company if it fails to resume trading within a shorter period specified in the notice (**specific remedial period**).
5. The amended Rules provide the following transitional arrangements for companies under a trading suspension immediately before the Effective Date:
 - (a) for companies under Practice Note 17 to the Rules, Practice Note 17 continues to apply (see Table A);
 - (b) for companies having been given a delisting notice, the delisting notice continues to apply (see Table B); and
 - (c) in other cases, companies suspended for 12 continuous months or more immediately before the Effective Date would be delisted if they remain suspended for 12 continuous months from the Effective Date, and those suspended for less than 12 months immediately before the Effective Date would be delisted if they remain suspended for 18 continuous months from the Effective Date (see Table C).
6. Table C also includes cases where trading begins to suspend after the Effective Date. The companies concerned will be delisted if they remain suspended for the 18 month period. Where appropriate, the Exchange may at any time during the trading suspension issue a delisting notice specifying a shorter specific remedial period referred to in paragraph 4 above, in which event the company will be transferred to table B.

Disclosure of information by companies

7. A suspended company is obliged to disclose (i) inside information under the Securities and Futures Ordinance, and (ii) all information required to be disclosed by a listed company under the Rules (e.g. financial results, notifiable and connected transactions). In addition, it must announce quarterly updates on its developments, such as its business operations, resumption plan and timetable, and the progress of implementing such resumption plan and satisfying the resumption conditions/guidance issued by the Exchange. Please see the companies' announcements available on the HKEXnews website at www.hkexnews.hk.
8. For guidance on the operation of the amended Rules, general obligations of suspended companies, the Exchange's regulatory actions during the resumption process, and guidance specific to different types of suspension cases², please see Guidance Letter GL95-18.
9. The table below presents a status summary of long suspended companies based on their published announcements, including conditions for resumption, deadlines for resumption, major developments and outstanding issues. The Exchange may modify or impose further resumption conditions/guidance subject to developments.

¹ Please see also the Exchange's article Overview of Policy on Share Trading Suspension available at <http://www.hkex.com.hk/eng/newsconsul/newsltr/2004/documents/2004-07-02-e.pdf> for details about circumstances for suspension

² Including (i) failure to maintain sufficient operations or assets, (ii) failure to publish financial results or inside information due to material irregularities, and (iii) failure to maintain sufficient public float

A. Companies under Practice Note 17 (see paragraph 5(a))

These companies are in severe financial difficulties and/or have either ceased to operate their businesses or are carrying on minimal operations. Under Practice Note 17, they enter into a three-stage delisting procedure of a minimum of six months each, during which they may submit proposals for the resumption of trading for the Exchange's approval. The companies may submit resumption proposals at any time during the delisting stages. Upon the expiry of each stage and in the absence of a viable proposal, the Exchange will place the company into the next delisting stage or if it is in the final stage, cancel its listing. The companies may seek a review of the Exchange's decision to place them into the next delisting stage or to delist them³.
